

# Extending your home - Checklist

---

## About this checklist -

This checklist is a device to help you clearly define why you need to extend your home. It lets you set out the main reasons for extending your home so that they can be clearly communicated to your chosen design professional.

You may have more than one reason for needing an extension, that's fine, tick as many options as apply to you, and use the space above to add anything that isn't included in the list.

Once you've finished if you'd like to define your brief further, or maybe even work on designing your own extension, alongside a fully qualified architect, then check out our online courses at <https://ckarchitecture.co.uk/academy-courses/>

**We'd love to help make your dream home a reality.**

# Extending your home - Checklist

Why do I need to extend my home?

-  I have a growing family and need more bedrooms. ☐
-  I have a growing family and need more bedrooms and living space. ☐
-  I have elderly parents who will be coming to live with us. ☐
-  I am thinking about the future and am planning for old age. ☐
-  I like to entertain and need more living space to do so. ☐
-  I need to be able to separate adult living spaces and child living spaces. ☐
-  I am going to be working from home and need an office space. ☐
-  There are too many poeple trying to get ready in the morning for only one bathroom. ☐
